Re: Operations Department Update

OVERVIEW OF PAST MONTH

1. In the past month we have had 2 main line repairs and 1 valve repair. One in Quarry Mountain and a main and valve repair in the Newpark area.
2. We had a pump repaired and installed at the Old Ranch pump station. (see photo)
3. Staff was involved with fire flow training that was done in front of our office.(see photo)
4. The new Community Tank project is ongoing with the contractor. They are installing the pipe needed for the new tank.

FOCUS FOR NEXT MONTH:

1. Demand has slowed down and winter preparations have begun. We are marking vaults, turning on heat, and making seasonal adjustments on sources,pumps and tanks.
2. The Innsbruck pump station upgrades are finished. The pump station was cleaned up and painted. Shelving was installed for better organization of parts.
3. Old Stone House flow control station upgrades are ongoing. Power is being hooked up and a sump pump is being installed
4. Pump rebuilds and power adjustments for Lost Canyon pumps are ongoing.
