Re: Operations Department Update

*****

OVERVIEW OF PAST MONTH

1. In the past month we have had 3 main line repairs and 1 valve repair. One in the Sun Peak area and 2 in Summit Park. The valve repair was in the Silver Summit business park area.

2. We had the carbon replaced in 2 vessels at the treatment plant. (see photo)

3. Jake Olderman installed a new hydrant in the Canyons resort area to provide flushing and draining of an almost mile long stretch of pipe that we previously could not do. It was part of his lead tech project. (see photo)

4. Staff has been involved in replacing master meters which require piping adjustments.

FOCUS FOR NEXT MONTH:

1. Winter preparations are continuing with heat and ventilation checks.

2. Well facility maintenance which includes painting upgrades,siding and roof upgrades.

3. Old Stone House flow control station upgrades are ongoing. Power is being hooked up and a sump pump is being installed

4. Pump repairs at Old Ranch and Lost Canyon pump stations.
